

# *Congratulations!!*

Here is your new computer.

**Computer Name:**

It's network name is:

**Operating System:**

The operating system is Windows XP, and it has the current Windows updates as of today. The software automatically updates itself.

**Antivirus Software:**

Your antivirus software is Norton Antivirus Corporate Edition. The software updates itself.

**Application Software:**

The following standard software is installed:

- Adobe Acrobat Reader
- Email –
- Microsoft Internet Explorer and Mozilla - we **STRONGLY** recommend running Mozilla
- Microsoft Office XP – Word, Access, PowerPoint, and Excel
- Spyware detection/removal tools - Ad Aware and SpyBot
- Novell NetWare networking software

**Network Drives:**

- Drive "i" is your personal storage space. Please store your data there so it gets backed up each night. Your email is stored on the i: drive so you can access it even if you log into a different computer.

**Printers:**

You can print to the following printers:

- 

**Files from Your Old Computer:**

We have copied the basic files over from your old computer and placed them in a directory called xxx FilesFromOldComputer. Please review the data in the folders and check to see that all your documents came over properly. Also check your Netscape and/or Internet Explorer shortcuts. If you find anything missing please let us know as soon as possible.

If you have questions or concerns please let us know - [dlang@engr.wisc.edu](mailto:dlang@engr.wisc.edu)
